

INTERMEDIATE TRANSPORTATION PLANNER

About Us

Our strength is our people. Bunt & Associates has been the transportation consultant of choice for hundreds of repeat public and private sector clients for more than 25 years. Our reputation is the result of our values: doing the right things for the right reasons – and doing them well – while providing fulfilling careers for our employees, working as a team, and delivering exceptional service and successful projects for our clients.

We are a group of highly motivated and professional individuals who work to maintain excellence in client experience and exceptional product delivery. Bunt offers a positive work environment that recognizes the importance of professional development, opportunities for advancement, and a work-life balance. This is our commitment in support of attracting and keeping exceptional people.

Job Description

We are seeking an Intermediate Transportation Planner to complement and augment our team. This position would interest someone looking to work in a boutique style office with offices in Calgary, Edmonton, Vancouver, and Victoria.

There will be opportunities for roles and responsibilities to grow and evolve as skills and experience develop. The successful candidate will lead or support a variety of public and private sector transportation planning and engineering projects ranging from single use sites to complex multi-use/multi-phase sites and infrastructure design/analysis in constrained urban environments with services including:

- Site Plan Development
- Transportation Master Plans
- Active Transportation Planning and Travel Demand Management Plans
- Parking and Travel Demand Forecasting
- Traffic Operational Analysis & Micro-simulation
- Traffic and Parking Impact Assessments
- Transportation Assessments for Area and Neighbourhood Structure Plans
- Transit Planning
- Conceptual/Functional Planning of Transportation Infrastructure
- Public Consultation and engagement process in BC, Including organizing and facilitating Stakeholder and Public Meetings

Qualifications & Experience

A BSc or BA degree in Planning, membership or applicability for membership with CIP, and five or more years of experience that includes progressive development in technical, project management, and business development in transportation planning is required. Individuals with proven skills in engineering-related tasks and programs will have an advantage.

Your role includes preparation of professional services proposals, mentoring junior staff, and involvement in business development activities. You are comfortable preparing for and making public presentations, have experience in project management of small to mid-sized projects, and are able to meet the scheduling demands of these projects.

We are seeking an individual who has:

- the ability to work well as part of a team or on an individual basis
- the ability to communicate effectively in both oral and written forms
- the aptitude to learn additional computer skills
- the ability to identify and set priorities and effectively manage time
- the required attention to detail
- a valid Class 5 Drivers License and access to a vehicle

Compensation

We offer competitive salaries, a performance bonus incentive program, and an excellent benefits package. Salary would be commensurate with experience level, qualifications and skills of the applicant.

How to Apply

If you are ready to take on an integral role in ensuring the development of positive transportation solutions, feel you possess the necessary skills, and are interested in working in a dynamic and positive environment with a highly skilled and fun loving team, please email your resume, references, and cover letter to careers@bunteng.com.

We thank all interested candidates; however only those short-listed for an interview will receive a response.
