

Junior Transportation Technologist – Edmonton

Bunt & Associates is an established and reputable Canadian transportation planning and traffic engineering consultancy with 5 offices spanning Western Canada. We work with a variety of clients – municipalities, developers and other stakeholders to provide enterprising solutions to transportation planning and traffic engineering problems. We're a true specialist consultant; we've been providing excellent service to our clients for over 32 years.

JOB DESCRIPTION

Location: 504, 10339 124th Street NW, Edmonton, Alberta T5N 3W1

Employment Type: Full-time (37.5 hours/week), Permanent.

Salary Range: \$58,000 - \$63,000

Estimated Start Date: March 2026

We are seeking a full-time Junior Transportation Technologist with a passion for (and preferably experience in) transportation engineering and planning, to be based out of our Edmonton office. You will have an opportunity to be involved in data collection, collation, and analysis, working with a variety of our technical staff to deliver quality projects for our clients.

Primary duties and responsibilities include:

- Participation in and coordination of data collection programs
- Preparation of infrastructure conceptual / functional design using AutoCAD
- Vehicle swept path analysis using AutoTurn
- Trip and parking generation forecasting
- Traffic signage, pavement marking and traffic control plans
- Traffic operations analysis using industry-standard software
- Preparation of high-quality text, tables and graphics summarizing analysis results for inclusion with technical reports
- Effectively communicating, written and oral, with Bunt staff and external stakeholders

Primary duties and responsibilities include:

Requirements:

- Diploma in Civil Engineering Technology, registered or eligible to register with ASET.
- Intermediate level competency with Microsoft Office (Excel, Word, Outlook)
- Competency with AutoCAD
- A valid Class 5 Drivers License (unrestricted) with access to a reliable vehicle

Desirable knowledge and skills:

- Up to two years of direct relevant experience, preferably in the consulting industry
- Knowledge of municipal and provincial planning processes and plan hierarchies
- Knowledge of local and provincial transportation infrastructure design and drawing standards
- Knowledge of capacity analysis
- Working familiarity with ArcGIS and CorelDraw

The successful applicant will be able to demonstrate the following personal competencies:

- Ability to effectively manage and prioritize multiple tasks
- Ability to work independently and collaboratively within a project team
- Be able to synthesize data into well-written text, suitable for a variety of audiences
- Personable, with intrinsic initiative
- A strong aptitude for technology and software
- Excellent attention to detail

** Applicants must be currently residing in the greater Edmonton area at time of hire.*

What We Offer:

We pride ourselves on our onboarding and foundational training. Bunt provides a unique and supportive work environment where every member of our Bunt community has their own career development plan. Outside of the work we do together, we enjoy many opportunities throughout the year to have fun (social), learn together and give back to our communities.

We offer a competitive salary, generous time off and an excellent benefits package. We cover health premiums, professional memberships, training costs, exam fees and provide a host of other perks to support wellness, engagement and growth. Specific salaries are commensurate with experience level, qualifications, and skills of the applicant. Upon successful completion of probation, employees may be eligible to work remotely, as per policy.

Our strength is our people. We have an amazing team. Our work environment is positive, growth-focused and inclusive, recognizing individual talents and interests. Aside from our technical work, we look for ways to meaningfully connect – to learn, to have fun and to collaborate. Bunt is committed to fostering a welcoming and diverse workplace where individuality is honoured.

We thank all candidates for their interest in this position; however, only those short-listed will be contacted. Should you require accommodation through the recruitment process, kindly mention this in your response. We do not accept applications / resumes through third party recruitment firms.

To apply:
